

EVALUATION OF THE GDPR UNDER ARTICLE 97 – QUESTIONS TO DATA PROTECTION AUTHORITIES / EUROPEAN DATA PROTECTION BOARD

ANSWERS FROM THE DANISH COURT ADMINISTRATION

The General Data Protection Regulation ('GDPR') entered into application on 25 May 2018, repealing and replacing Directive 95/46/EC. The GDPR aims to create a strong and more coherent data protection framework in the EU, backed by strong enforcement. The GDPR has a two-fold objective. The first one is to protect fundamental rights and freedoms of natural persons and in particular their right to the protection of personal data. The second one is to allow the free flow of personal data and the development of the digital economy across the internal market.

According to Article 97 of the GDPR, the Commission shall submit a first report on the evaluation and review of the Regulation to the European Parliament and the Council. That report is due by 25 May 2020, followed by reports every four years thereafter.

In this context, the Commission shall examine, in particular, the application and functioning of:

- Chapter V on the transfer of personal data to third countries or international organisations with particular regard to decisions adopted pursuant to Article 45(3) of this Regulation and decisions adopted on the basis of Article 25(6) of Directive 95/46/EC; and
- Chapter VII on cooperation and consistency.

The GDPR requires that Commission takes into account the positions and findings of the European Parliament and the Council, and of other relevant bodies and sources. The Commission may also request information from Member States and supervisory authorities. As questions related to Chapter VII concern more directly the activities of the DPAs, the present document focuses primarily on that aspect of the evaluation, while also seeking their feedback on Chapter V related issues.

We would be grateful to get the replies to the questions (in English) by 15 January 2019, at the following e-mail address: JUST-EDPB@ec.europa.eu.

Please note that your replies might be made public.

When there are several DPAs in a given Member State, please provide a consolidated reply at national level. In the context of the preparation of the evaluation report, and following the input from other stakeholders, it is not excluded that we might have additional questions at a later stage.

I. CHAPTER V

The GDPR provides that the adequacy decisions adopted by the Commission under Directive 95/46 remain in force under the GDPR until amended, replaced or repealed. In that context, the Commission is tasked to continuously monitor and regularly evaluate the level of protection guaranteed by such decisions. The 2020 evaluation provides a first opportunity to evaluate the 11 adequacy decisions adopted under the 1995 Directive. This does not include the decision on the Privacy Shield that is subject to an ad hoc annual review

process and the Japanese adequacy decision that was adopted last year under the GDPR and is also subject to a specific evaluation exercise (the first one will be in 2021).

1. Has any stakeholder raised with your authority any particular question or concern regarding any of the adequacy decisions adopted under the 1995 Directive (with the exception of the EU-US adequacy decision which is not covered by this evaluation process)?

No.

2. Does your authority have any information on the developments of the data protection system of any of the countries/territories subject to a Commission adequacy decision under the 1995 Directive that you would consider relevant for the Commission's evaluation?

No.

3. In your view, should any third country or international organisation be considered by the Commission in view of a possible adequacy decision?

In the opinion of the DPA of the Danish Court Administration the following third countries should be considered:

- The Faroe Islands regarding the authorities of the Kingdom of Denmark, namely the Court of the Faeroe Islands (Sorenskriveren) etc.
- Similarly, for Greenland regarding the authorities of the Kingdom of Denmark, namely the Courts of Greenland etc.

II. CHAPTER VII

The GDPR provided for one single set of data protection rules for the EU (by a Regulation) and one interlocutor for businesses and one interpretation of those rules. This "one law one interpretation" approach is embodied in the new cooperation mechanism and consistency mechanisms. In order to cooperate effectively and efficiently the GDPR equips the Data Protection Authorities (thereafter the DPA/DPAs) with certain powers and tools (like mutual assistance, joint operations). Where a DPA intends to adopt a measure producing effects in more than Member State, the GDPR provides for consistency mechanism with the power to ask for opinions of the European Data Protection Board (EDPB) on the basis of Article 64(1) and (2) GDPR. In addition, in situations where the endeavour to reach consensus in the cases of one-stop shop (OSS) does not work (i.e. there is a dispute between the DPAs in specific cases), the EDPB is empowered to solve the dispute through the adoption of binding decisions.

In this context, the Commission finds it appropriate to request the views of the DPAs / EDPB on their first experiences on the application of the cooperation and consistency mechanisms. To this aim, the Commission established the list of questions below, in order to help the DPAs framing their input. It is understood, that the Commission is also interested in any comments the DPAs may have which goes beyond the answer to the questions and which concerns the application of the two above-mentioned mechanisms.
