

Feedback on 'Guidelines 4/2019 on Article 25 Data Protection by Design and by Default'

By Michal Buras

Page	Feedback
4	Section: The European Data Protection Board - Full stops instead of commas to be added at the end of each paragraph.
5	Paragraph: In closing, the EDPB provides recommendations on how controllers, processors and technology providers can cooperation to achieve DPbDD and how DPbDD can be used as a competitive advantage. Should say: In closing, the EDPB provides recommendations on how controllers, processors and technology providers can cooperate to achieve DPbDD and how DPbDD can be used to achieve competitive advantage.
5	Paragraph 1: 'GDPR-compliant' should say 'GDPR compliant' (no hyphen).
6	Format of headings need to be made consistent – e.g bold number in page 6 or no number in heading 'Addressing Effectiveness' or 'state of the art' on page 7.
12	Paragraph 52 numbering indented inappropriately.
