# Evaluation of the LED under Article 62 – Questions to Data Protection Authorities / European Data Protection Board

Fields marked with * are mandat
---------------------------------

#### Background

The Data Protection Law Enforcement Directive (LED)[1] entered into force on 6 May 2016 and the Member States had to transpose it by 6 May 2018[2]. It applies to the domestic and cross-border processing of personal data by competent authorities for the purposes of preventing, investigating, detecting or prosecuting criminal offences and executing criminal penalties, including safeguarding against and preventing threats to public security. The LED is the first instrument that takes a comprehensive approach to data protection in the field of law enforcement, including by regulating 'domestic' processing. It is therefore a significant development compared with the earlier Framework Decision (which covered only transmission between Member States) that it repealed and replaced.

By harmonising the protection of personal data by law enforcement authorities in EU and Schengen countries, it contributes to increased trust and data exchange between authorities for law enforcement purposes, provided such exchange is based on a law, while at the same time ensuring that the rights of individuals are effectively protected.

As required by the LED[3], the Commission shall present to the European Parliament and to the Council a first report on the evaluation and review of the Directive by 6 May 2022[4]. Following the review the Commission shall, if necessary, submit appropriate proposals for amendments, in particular taking account of developments in information technology and in the light of the state of progress in the information society[5].

The LED stipulates that the Commission shall take into account the positions and findings of the European Parliament, of the Council and of other relevant bodies or sources[6]. The Commission may also request information from Member States and supervisory authorities. The Commission has already started a dialogue with the Member States through the Council Working party on Data Protection. A dedicated questionnaire has also been sent to civil society organisations by the European Union Agency for Fundamental Rights (FRA).

For the purpose of the evaluation and review the Commission shall in particular examine the application and functioning of the LED provisions on international data transfers[7]. Besides, this questionnaire seeks to cover other aspects with particular relevance for the supervisory authorities, such as the exercise of their tasks and powers and their cooperation with each other, as well as the consistent application of the LED in the EU.

As this questionnaire intends to contribute to evaluating the LED, in your replies please provide information on your activities (e.g. as regards the decision-making, awareness-raising, training etc.) which fall <u>under the scope of the LED</u>.

We would be grateful to receive the replies to this questionnaire in its online form in English, before **5 November 2021**, so that they can be sent to the European Commission as part of the EDPB contribution to the LED review by 17 December 2021

Please note that your replies may be made public.

When there are several DPAs in your Member State, please provide a consolidated reply at national level.

When replying, please take into account that the questions below concern the **period from the date when the LED was transposed in your Member State to 5 November 2021**, unless otherwise specified.

Following the input from other stakeholders, it is not excluded that we might have additional questions at a later stage.

-----

[1] Directive (EU) 2016/680 on the protection of natural persons with regard to the processing of personal data by competent authorities for the purposes of the prevention, investigation, detection or prosecution of criminal offences or the execution of criminal penalties, and on the free movement of such data. [2] Article 63(1) LED, [3] Article 62(1) LED, [4] Reports should subsequently be issued every four years. [5] Article 62(5) LED, [6] Article 62(4) LED, [7] Article 62(2) LED

### **QUESTIONNAIRE**

We kindly ask the countries that have more than one SA to send us one consolidated reply.

\* Select your Country

#### **Powers**

- \* Q1: In your opinion, did the LED strengthen your investigative powers / corrective powers?
  - Yes
  - O No
- \*Q2: Please list your investigative powers
  - ▼ To obtain, from the controller and the processor, access to all personal data and to all information necessary for the performance of its tasks
  - To obtain access to any premises of the controller and the processor, including to any data processing equipment and means, in accordance with Union or Member State procedural law
  - To carry out investigations in the form of data protection audits
  - Other(s)

*Q3: Do you consider your investigation powers effective	
Yes	
O No	
Q3.2: If needed, please provide more details below:	
* Q4: Do you face any practical difficulties in applying your investigative powers?	
O Yes	
No

211: Please indicate the issues raised the most in these complaints, in particular as regards data
subject rights.
The respect of the proportionality and necessity principle (Article 4 LED)
The respect of the purpose limitation principle, including for subsequent processing
Data minimisation principle (Article 4 (1)(c) LED)
Accuracy of the data (Article 4 (1)(d) LED)
Storage limitation principle (Article 4 (1)(e) LED) and appropriate time limits (Article 5 LED)
Accountability of the controller (Article 4(4) LED)
The determination of the legal basis (Article 8 / Article 10 LED)
The conditions related to the processing of special categories of personal data (Article 10 LED)
Automated individual decision-making, including the right to obtain human intervention in automated individual decision-making (Article 11 LED)
Modalities for exercising the rights (Article 12 LED)
The right to information (Article 13 LED)
Right of access by the data subject and limitations to this right (Articles 14 and 15 LED)
The right to rectification or erasure of personal data (Article 16 LED)
Exercise of the data subject's rights in the context of joint controllership (Article 21 LED)
Data protection by design and by default (Article 20)
The obligation to keep track of the logs and purposes of processing regarding the logs (Article 25 LED)
The obligation to conduct a data protection impact assessment (Article 27 LED)
The obligation to ensure the security of processing, including data breaches (Articles 4(1)(f), 29 LED)
